

Driscoplex® 1700 series

Mining Stripe DR

DriscoPlex® 1700 series is a co-extruded single stripe along the entire length of the pipe. It is primarily used in gravity flow or pressure rated mining applications. The DriscoPlex® 1700 piping systems are manufactured to the requirements of ASTM F714 for 3" IPS (90 mm) and larger pipe. Smaller than 3" sizes are manufactured to the requirements of ASTM D3035. The stripe identifies the pipe's DR without measurement by association with the chart below. This is an industry color standard.

Dimension Ratio (DR)	Stripe Color Coding	Colors
DR 7.3/7.0	White	White
DR 9.3/9.0	Red	Red
DR 11	Yellow	Yellow
DR 13.5	Gray	Gray
DR 15.5	Orange	Orange
DR 17	Blue	Blue
DR 21	Lavender (Purple)	Lavender
DR 26	Green	Green
DR 32.5	Brown	Brown
